SINCE 1930

The Falegnameria Pellegrini Company, founded in 1930 by Vittorio Pellegrini, is an artisan company that operates in the woodworking sector, mainly in the production of windows and doors, adopting as guidelines reliability in the relationship with its partners, quality rigor and compliance with safety and environmental regulations.

MISSION

The company, historically linked to the local market, has opened the collaboration towards other national realities and has been oriented towards internationalization, thus involving people and partners in the continuous search for novelty, unique design, and success.

The internal organization has been in constant evolution, leading it to combine:

Handicrafts and modern technologies,

- Inheritance and Innovation,
- Craftmanship and Intellect,
- Chisel and Production line 4.0,
- Wisdom of the old generations and enthusiasm of the new generation,
- Historical paper records with good management practices.

VALUES

Reliability, Tradition, Rigour, Respect, Sustainability, Passion.

PRODUCTION

Integration of the internal process from the semi-finished wood material to the finished product with Pellegrini-owned machinery, with regularly trained internal staff.

DEVELOPMENT

Product design, Prototypes, Semi-industrialisation

PRODUCT

For over 90 years, the COMPANY has extended its presence in Italy and in construction sites based in other countries, operating in two different business segments: The reselling, The direct selling.

As an artisan manufacturing company, the Falegnameria Pellegrini:

creates its products from WOOD material, in various species,

develops its production PROCESSES with semi-industrialized processes combined with manual ones,

guarantees high quality standards through rigorous PROCESSING.
